Growth. Influence. Impact.

## WHO We Are

The CIO Association of Canada grows IT leaders, speaks with one voice on issues facing CIOs, and builds a vendor-neutral community for safe exchange of ideas and best practices.

- We represent the CIO Profession in Canada; members are all CIOs or their direct reports
- Senior faculty from Canada's top university business schools join us as academic members
- CIOs drive our agenda. We're self-managed, not for profit, vendor neutral.

## WHAT We Do

- We help grow careers through C-level live and online events across Canada
- We advocate on IT-related issues that impact Canadian business, extending our influence and reach through industry and media partners
- The annual CIO Peer Forum is the signature event of the Association, normally held in April each year. Hosting the event is shared among the various cities that have established chapters. Watch the [CIO Peer Forum page](#) of the website for information on the next CIO Peer Forum
- Build networks in person and on-line to create a strong CIO Community. Senior executive membership ensures safe C-level exchange of ideas and best practices

## MEMBERSHIP Categories

We have several levels of membership to address the different stages or your career. **Visit our website** to see the details and choose the level that best suits your needs.

*"With CIOCAN, I am connected with my peers in the local IT leadership community and I get to give back to the profession. It has been an amazingly rewarding experience!"*

*I enjoy helping CIOs stay in touch with trends and relevant issues, and helping them develop strong peer relationships so that they can discuss real world projects and best practices. As members, we leverage the CIOCAN network to transform our businesses.."*

*Andrew Dillane - Past President, CIOCAN; CIO, Randstad Canada*

*"The CIO Association of Canada is a valued partner in driving the Digital Adoption Campaign in Canada. Case studies from CIOCAN members will be a tremendous resource for Canadian SMEs, allowing them to get up to speed in adopting technologies that will move their businesses forward."*

*Namir Anani - President, ICTC*
