ManageEngine

is the enterprise IT management software division of Zoho Corporation

Privately held and profitable since inception

Enterprise IT Management
Solution

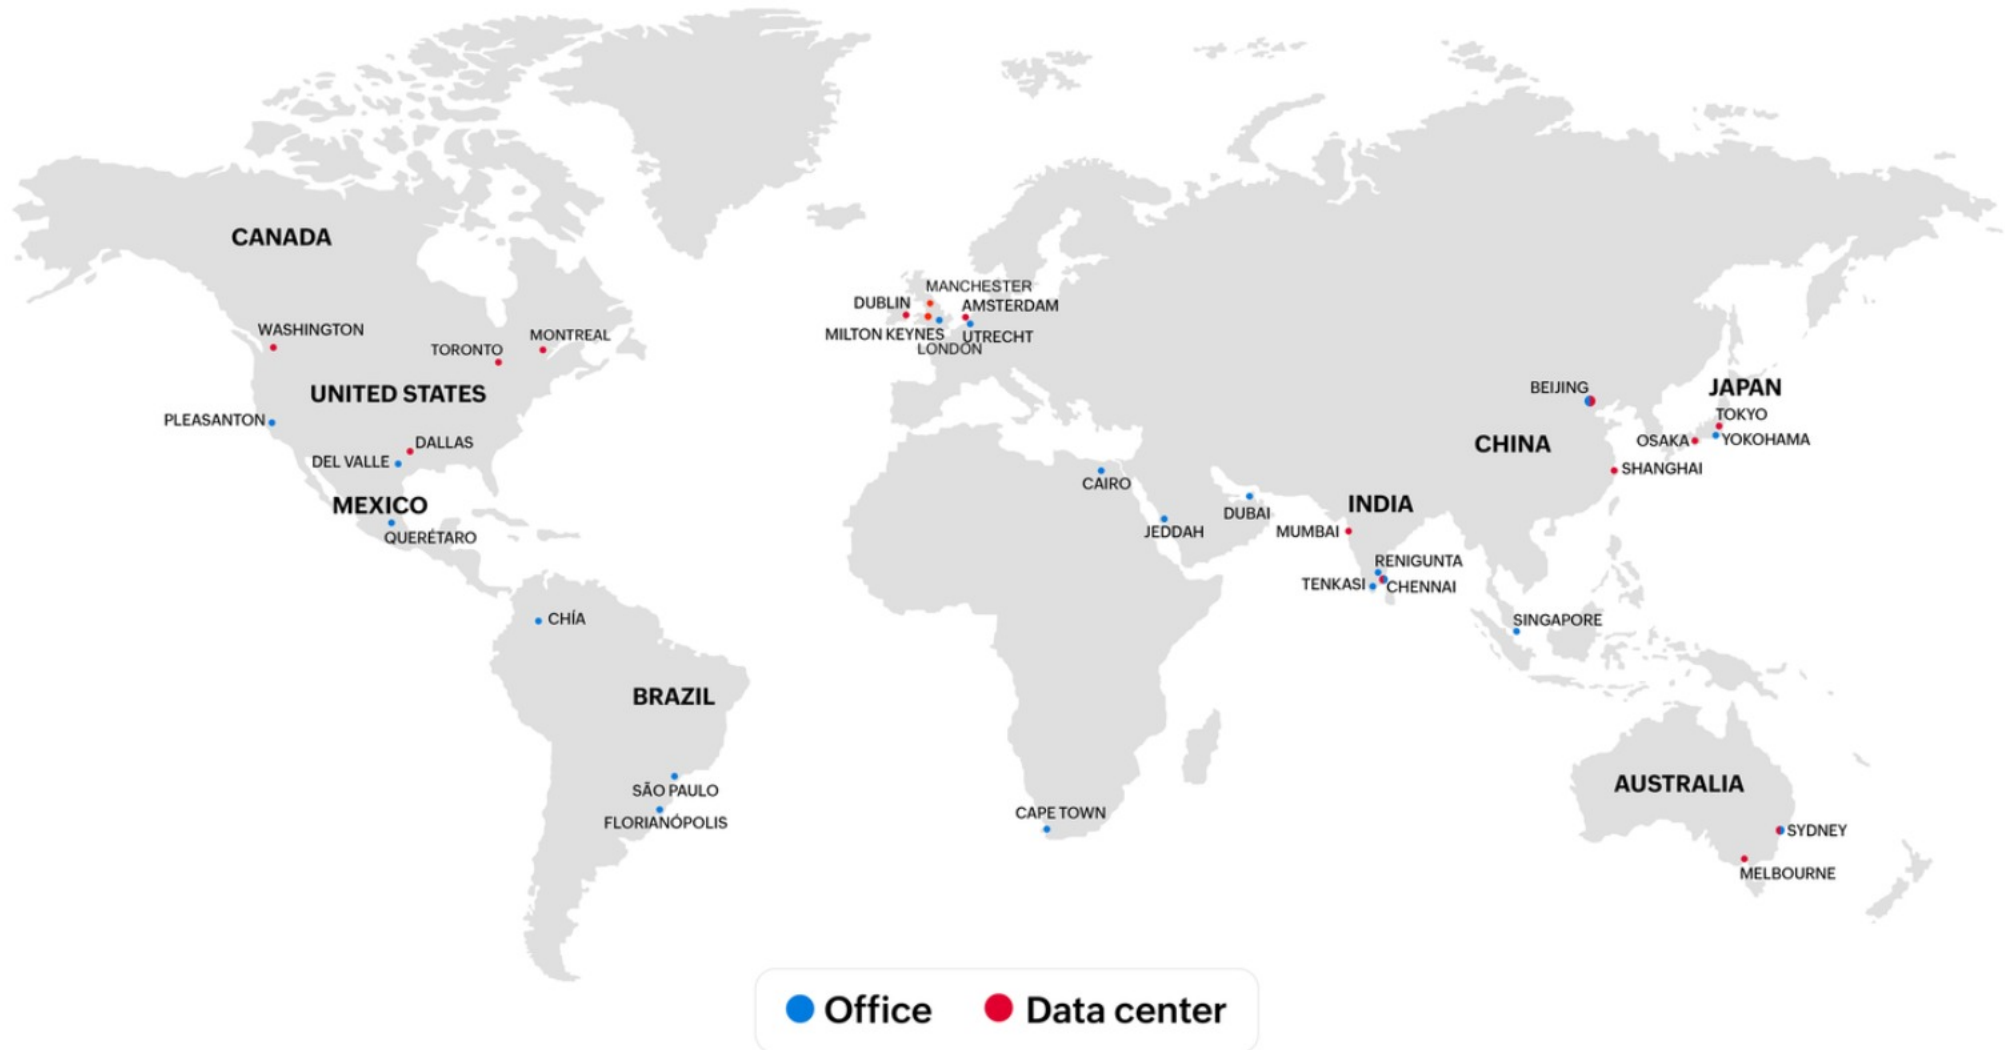

Application for business,
collaboration and productivity

Technology and soft-skill
training for local students

Corp. worldwide

The back office to boardroom journey of IT

The current state of AI

- Consumer grade Large Language Models
- Narrow AI has made inroads into the enterprise

AI meets IT

Adaptive thresholding

Continuous authentication

Exploit triad analytics - Users, Entities & Processes

Phishing detection

Ransomware & Malware detection

Smart service delivery

...

Have we achieved *AI* maturity?

~~AI~~ Digital maturity is a moving target

- Sharing passwords in plain text
- Not patching software frequently
- Unlocked and unattended devices
- Unencrypted sensitive data
- Poorly configured permissions
- Lack of DLP
- ...

How to act?

- Sharing passwords in plain text
- Not patching software frequently
- Unlocked and unattended devices
- Unencrypted sensitive data
- Poorly configured permissions
- Lack of DLP
- ...

Process Streamlining

- How much of your process is captured?
- Infra teams and app teams have become agile
- Seamless integration between private and public clouds
- No tight integration between procurement teams, Purchase modules, CMDB, etc., is a big pain point for audit teams.

Data Streamlining

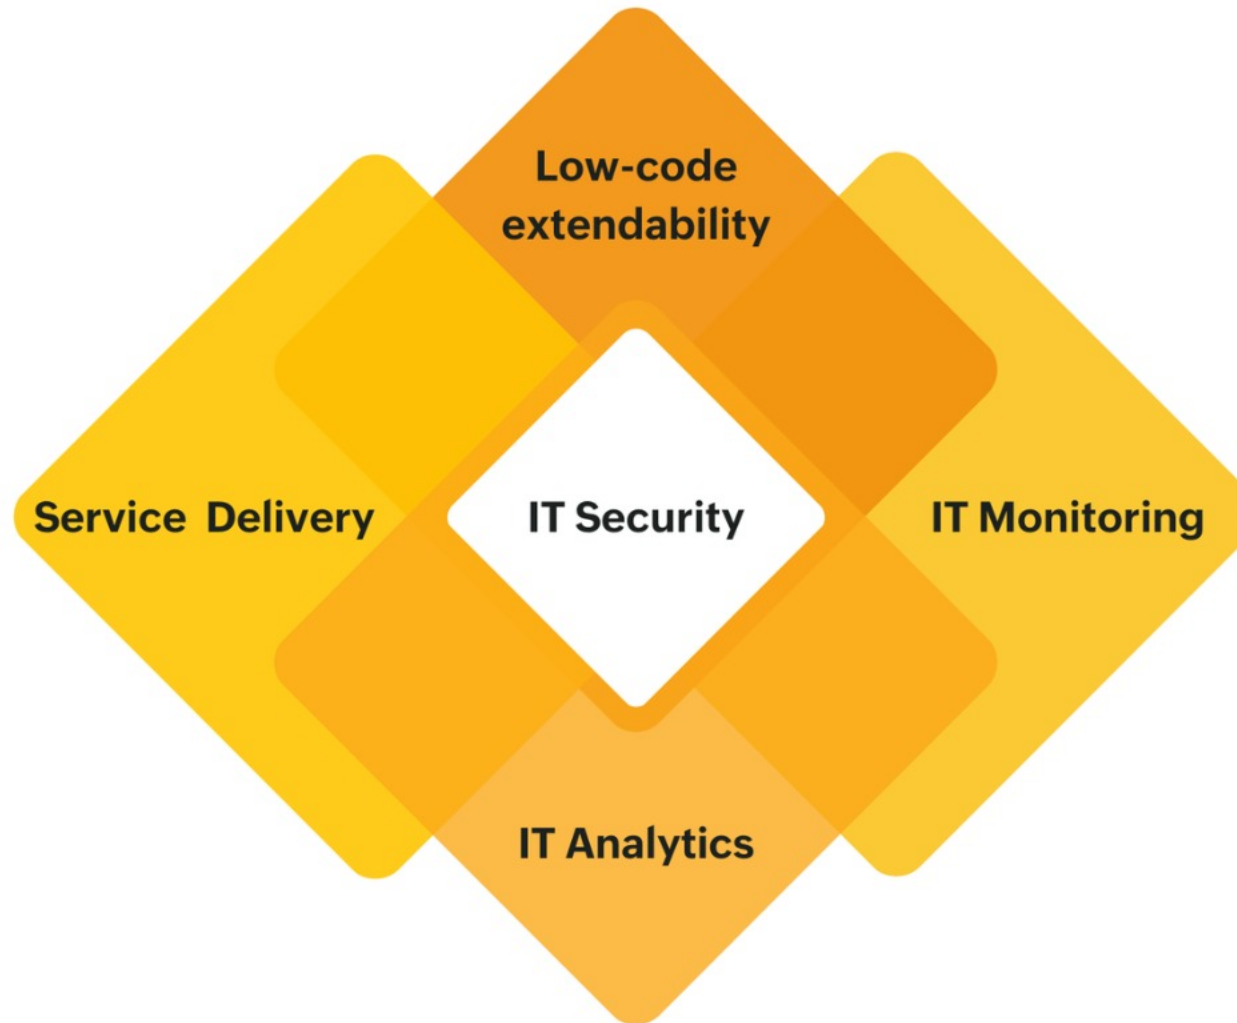

- AI does not like data in silos
- Systems evolve over time
- Would help better prediction and reduce false positives

Automation

- Integrated systems and processes precedes AI application in IT
- Cybersecurity lifecycle should be captured and be accessible for the AI model
- Automation augmented with historic info is AI

The road to digital maturity

What should I do?

Cultural change in the organization

- DevOps/DevSecOps
- All-hands meetings
- Blameless postmortems
- Collaboration and annotation tools

Every incident is a goldmine

- Why did it happen?
- What was the impact?
- Who fixed the issue?
- How do I avoid it?

Blended analytics

- Solves data silo problems
- Visibility for all, especially operations members
- Back office to boardroom journey

Let's talk some AI

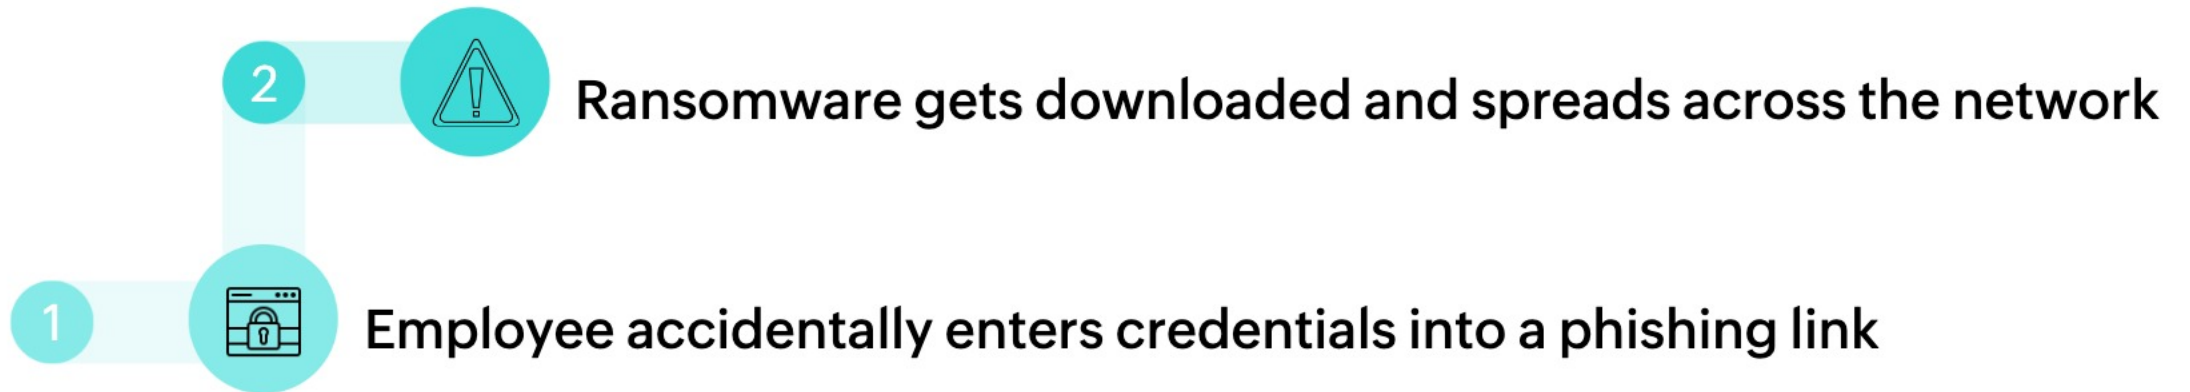

Security incident at a hospital

1

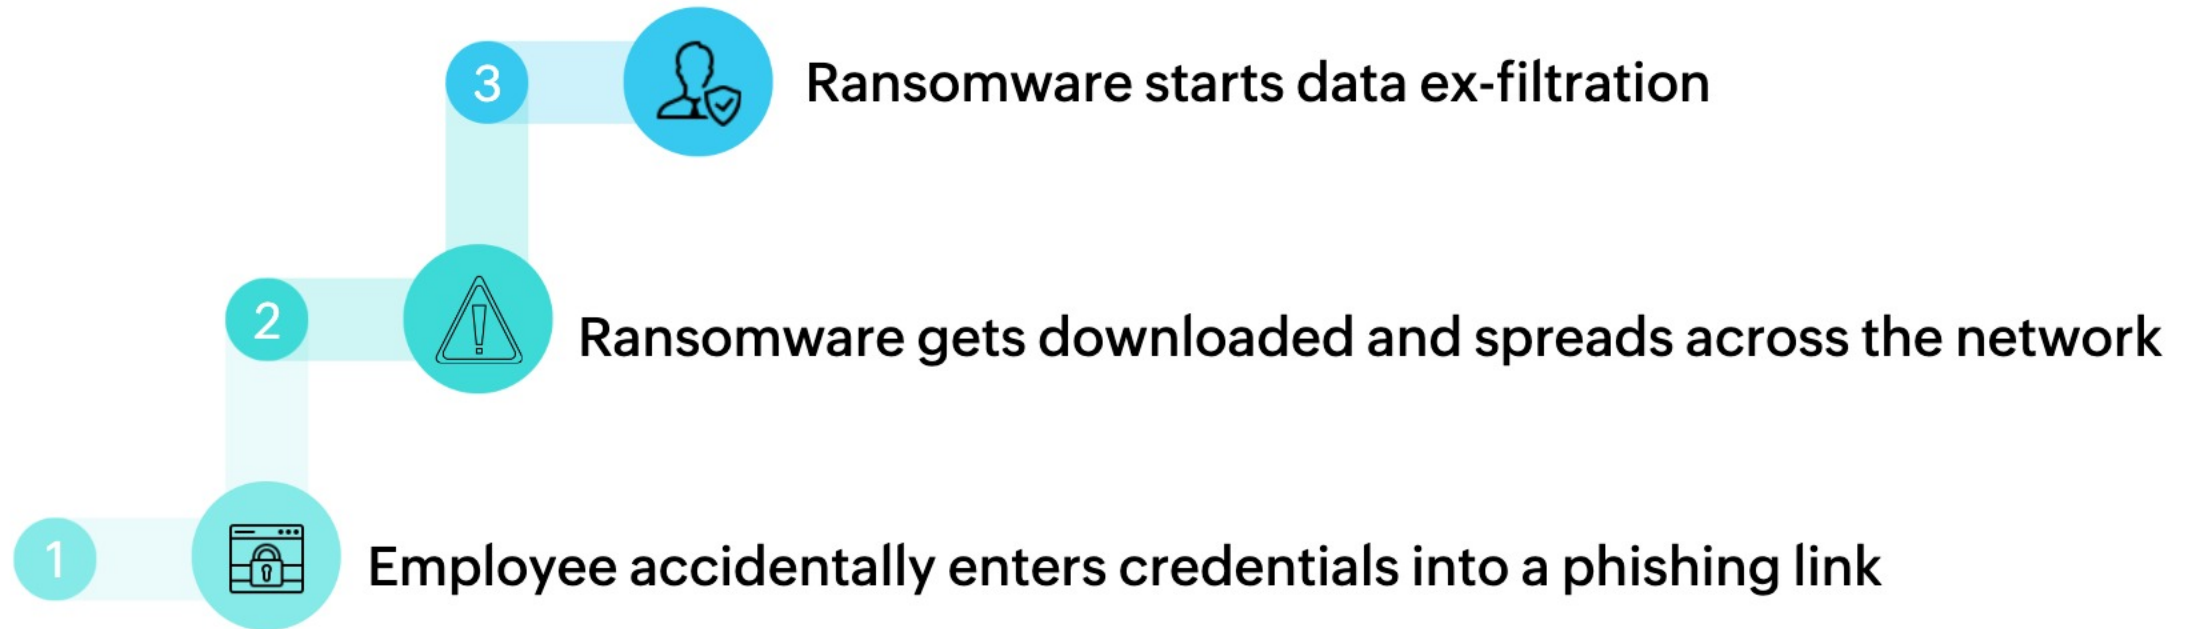

Employee accidentally enters credentials into a phishing link

Enhance IT operations with our Cutting-edge AI Powered Solutions

LLM's Challenges

- No tailor made enterprise grade LLMs
- Cost
- Privacy implications

Where do we see this going?

Contextual Intelligence

Bringing IT together

Enterprise service management

- Full-stack ITSM suite
- IT asset management with a CMDB
- Knowledge base with user self-service
- Built-in and custom workflows
- Orchestration of all IT management functions
- Service management for all departments
- Reporting and analytics

Identity and access management

- Identity governance and administration
- Privileged identity and access management
- AD and Azure AD management and auditing
- SSO for on-premises and cloud apps, with MFA
- Password self-service and sync
- Microsoft 365 and Exchange management and auditing
- AD and Exchange backup and recovery
- SSH and SSL certificate management

Unified endpoint management and security

- Desktop and mobile device management
- Patch management
- Endpoint device security
- OS and software deployment
- Remote monitoring and management
- Web browser security
- Monitoring and control of peripheral devices
- Endpoint data loss prevention

ManageEngine crafts comprehensive IT management software for your business needs

Available for

Enterprise IT | Managed service providers (MSPs)

as

- Self-hosted on-premises
- Self-hosted in public cloud (AWS, Azure)
- Zoho Cloud-native

IT operations management

- Network, server, and application performance monitoring
- Bandwidth monitoring with traffic analysis
- Network change and configuration management
- Application discovery and dependency mapping
- Cloud cost and infrastructure monitoring
- End-user experience monitoring
- DNS management
- AIOps

Security information and event management

- Unified SIEM for cloud and on-premises
- AI-driven user and entity behavior analytics
- Firewall log analytics
- Data leak prevention and risk assessment
- Regulatory and privacy compliance

Advanced IT analytics

- Self-service IT analytics
- Data visualization and business intelligence for IT
- Hundreds of built-in reports and dashboards
- Instant, flexible report creation
- Out-of-the-box support for multiple data sources

Low-code app development

- Custom solution builder

Thank you
